Pursuant to Policy No. 3080.34, tree trimming shall only be conducted by a state licensed (D-49) Tree Service Contractor, provided that has been pre-approved by the District. This list is provided for the convenience only of residents who wish to apply for a Tree Trimming Permit. An applicant for a tree permit is not required to utilize one of the contractors on this list, and may use another tree service contractor, provided the applicant submits the name of that landscaping contractor to the District along with a copy of that contractor's current D-49 license. Please be advised that it is the applicant's responsibility to ensure that any tree service contractor, whether or not on this list, is currently licensed by the State Contractor's Board. The District does not endorse or recommend any specific contractor, and assumes no liability, express or implied, for any damage and/or harm caused by a contractor selected by a property owner or other person to perform work on any parkway and/or median tree, whether or not that contractor is pre-approved by the District.
